The rustic yet charming design of the kraft packaging will not only complement your product but also convey a commitment to environmentally-friendly practices, setting it apart in the market.

PAGE 32-33

ABOUT ITEX COMPANY

Since 1997, PC "ITEX" has manufactured disposable plastic food packaging from various materials, including biaxially oriented polystyrene and recycled polyethylene terephthalate (r-PET). Operating as PP "AITEX," our contemporary facility features an extrusion line producing (A-B-A) film and packaging equipment, along with an extensive inventory of finished products. We supply a diverse selection of packaging for retail, cafes, restaurants, and various food items. Our packaging adheres to European food contact standards, having undergone EU laboratory tests that confirm its compliance with EU food contact regulations. In line with our environmental commitment, 90% of our PET film extrusion employs recycled materials.

The range of our items fully covers the needs of customers in rigid food packaging and includes:

- Packaging for bakery and cookies
- Trays for sealing (mono PET)
- MULTIPURPOSE PACKAGING
- Packaging for salads
- Packaging for sauces
- Packaging for sushi
- Packaging for cakes

We collaborate closely with customers, continuously enhancing packaging designs based on their preferences and needs, while improving product functionality.

Since January 2021, PC "ITEX" is ISO 22000:2018 HACCP certified. With extensive experience in packaging sales, we serve both domestic and international markets. Our partners span 20 countries across Europe and worldwide.

Join us in partnership, where we assure timely delivery of premium packaging solutions at competitive prices.

Cakes belong to the category of products that advertise themselves. The task of packaging for culinary masterpieces is not to overshadow the appearance of the product and to preserve all its properties. That is why plastic packaging has become an integral part of the confectionery segment and has remained so for a long time. Our packaging for cakes and bakery items will provide:

- transparency for full and perfect display of the cake
- exclude the possibility of deformation and preserve the original appearance of the product
 - protection during transportation
 - will not let in foreign odors
 - safety for a human health
- a variety of shapes and sizes will satisfy all needs and tastes.

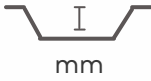

PACKAGING FOR BAKERY

The traditional design and attractive appearance of the cake packaging will emphasize the attractiveness of your product, and its reliability will help you deliver it to the consumer quickly and conveniently.

We develop and produce confectionery packaging on our own equipment. We have assembled an effective combination of technological processes of all stages of production. Every employee of our company understands how important it is to produce a good product, and Aytex appreciates its people for this. Advantages of purchasing packaging from us:

- production of confectionery packaging takes place at our own facilities;
- a wide assortment, you will definitely find a packaging option that is ideal for you;
 - flexible price policy;
 - prompt delivery of goods to any city in the country;
 - the ability to buy any packaging wholesale and retail.

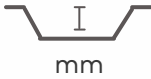

UNIVERSAL PACKAGING

Universal packaging is the optimal solution proposed by our designers and engineers, meets all the requirements, Provide maximum protection and functionality when used.

ITEX company also produces packaging for salads.

We are for environmentalism. Therefore, our series of packaging for salads is made exclusively from high-quality raw materials.

Premium and unique appearance, pleasant tactile sensations, different volumes and sizes are suitable for institutions of different levels. The salad group of packaging can be both transparent and black. A well-packaged product is a guarantee of big sales and consumer memories of you! We offer you to stand out among competitors by purchasing packages with a unique design from Aiteks.

Suitable for packing salads, berries, vegetables, fruits, cookies, candies, etc.
